Series2 Bariatric

High specification foam bariatric mattress can reduce air mattress usage by 85%.

With official statistics showing that 85% of pressure ulcers are category 1 or 2, this innovative mattress will help dramatically reduce the need for air mattresses.

Offloader

Used to suspend the heel for 'zero pressure' making it suitable as an aid in the prevention and treatment of heel ulcers up to and including category 4.

V-Guard

Extra strong covers, excellent for infection control with ultra stretch for pressure relief.

Mattress selection

For prevention and treatment of pressure ulcers up to and including category 2.

Aerolite

Highly responsive foam with microclimate properties keeps the body cool and dry.
