

Lockwood

Soft cushioning & conventional wings to give postural support.

With its solid wooden frame, the Lockwood bedside chair offers patients & visitors exceptional comfort & support. Blending a classic design with optimum practicality, this patient chair is constructed with a high back & an extra thick seat cushion, providing patient comfort when seated for long periods of time. With its wipe-clean upholstery, the Lockwood meets the rigorous IPC demands of a busy healthcare environment.

Infection Prevention & Control

Antimicrobial vinyl upholstery protects against germs, abrasion & staining, whilst supporting local IPC policies & practices.

Postural support

Ergonomically designed for postural support with a high back & an extra thick seat cushion for patient comfort.
