Tereno Deluxe

The ultra-low OneBed™ strategy for everyday care

The upholstered finish Tereno Deluxe bed offers a single OneBed™ strategy for care homes as the bed can adjust with the resident's care journey. The innovative design focuses on promoting mobility & falls prevention whilst supporting residents and care staff at all stages of residential care.

Fully customisable

Head & foot boards available in a range of attractive upholstered finishes. Every care bed can become an individual designer piece & can be quickly transformed by replacing individual elements if a new resident prefers a different look.

Rethinking falls prevention

With its lowest position of approx. 15 cm, the Tereno Classic supports efficient fall prevention without restricting the mobility of the resident.

Resident safety

Tereno Deluxe is fully adaptable to the resident's care pathway, offering 2 split safety sides (90 & 110cm) to ensure individual's safety & supporting falls prevention.

Removable head & foot boards

Removable headboards & footboards support care givers when delivering physiotherapy & medical treatment.
